SECTION 2 - COMPOSITION/INFORMATION ON INGREDIENTS

| Chemical Name | CAS# | Ingredient Percent |
|----------------------------------|------------|--------------------|
| Titanium dioxide | 13463-67-7 | 5 - 10 by weight |
| Talc, Magnesium silicate hydrate | 14807-96-6 | 1 - 5 by weight |
| Nonanes | No Data | 5 - 10 by weight |
| Aliphatic Hydrocarbon | 64742-49-0 | 5 - 10 by weight |
| Rutile | 1317-80-2 | 1 - 5 by weight |
| Silicate, mica | 12001-26-2 | 5 - 10 by weight |
| Undisclosed/Proprietary | No Data | 10 - 30 by weight |
| Octanes, all isomers | No Data | 5 - 10 by weight |
| Non-hazardous ingredients | | 5 - 10 by weight |
| Acetone | 67-64-1 | 10 - 30 by weight |
| n-butane | 106-97-8 | 5 - 10 by weight |
| Propane | 74-98-6 | 10 - 30 by weight |
| Isobutane | 75-28-5 | 1 - 5 by weight |
| | | |

SECTION 3 - HAZARDS IDENTIFICATION

Emergency Overview: Extremely flammable aerosol. Irritant. Contents under pressure.

Potential Health Effects:

Eye: May cause irritation. Skin:

Inhalation: Prolonged or excessive inhalation may cause respiratory tract irritation.

Harmful if swallowed. Ingestion can cause nausea, vomiting, diarrhea and gastrointestinal irritation. Ingestion:

Chronic Health Effects: Prolonged or repeated contact can result in defatting and drying of the

skin, which may result in skin irritation and dermatitis (rash) Repeated or prolonged inhalation may cause toxic effects.

Signs/Symptoms: Overexposure can cause headaches, dizziness, nausea, and vomiting.

Target Organs: Eyes. Skin. Respiratory system. Digestive system. Central nervous

Aggravation of Pre-Existing May aggravate pre-existing respiratory disorders, allergy, eczema, or

SECTION 4 - FIRST AID MEASURES

Immediately flush eyes with plenty of water for 15 to 20 minutes. Get medical attention, if irritation or symptoms of overexposure persists. Eve Contact:

Immediately wash skin with soap and plenty of water. Skin Contact:

Get medical attention if irritation develops or persists.

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration or give oxygen by trained personnel. Seek immediate

medical attention.

If swallowed, do NOT induce vomiting. Call a physician or poison control Inaestion:

center immediately. Never give anything by mouth to an unconscious

person.

Other First Aid: Due to possible aspiration into the lungs, DO NOT induce vomiting if

ingested. Provide a glass of water to dilute the material in the stomach. If vomiting occurs naturally, have the person lean forward to

reduce the risk of aspiration.

SECTION 5 - FIRE FIGHTING MEASURES

Flammable Properties: Extremely flammable aerosol. Contents are under pressure. Will

release flammable vapors at well below ambient temperatures and readily form flammable mixtures with air. It will burn in the open and $\,$

may be explosive in confined spaces.

Flash Point: -156°F (-104°C)

Lower Flammable/Explosive

0.8%

Limit:

12.8%

Upper Flammable/Explosive

Fire Fighting Instructions:

Flammable. Cool fire-exposed containers using water spray.

Extinguishing Media:

Use alcohol resistant foam, carbon dioxide, dry chemical, or water fog or spray when fighting fires involving this material.

As in any fire, wear Self-Contained Breathing Apparatus (SCBA),

Protective Equipment:

MSHA/NIOSH (approved or equivalent) and full protective gear

Unusual Fire Hazards:

Flammable liquid. Vapors can form an ignitable mixture with air. Vapors can flow along surfaces to a distant ignition source and flash back.

NFPA Ratings:

NFPA Health: 1 NFPA Flammability: NFPA Reactivity: NFPA Other: NA

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personnel Precautions: Use proper personal protective equipment as listed in section 8.

Environmental Precautions: Avoid runoff into storm sewers, ditches, and waterways.

Remove all sources of ignition. Absorb spill with inert material (e.g., dry Spill Cleanup Measures:

sand or earth), then place in a chemical waste container. Provide ventilation. Collect spill with a non-sparking tool. Place into a suitable

container for disposal.

SECTION 7 - HANDLING and STORAGE

Handling: Use with adequate ventilation. Avoid breathing vapor and contact with

eyes, skin and clothing. Material will accumulate static charges which may cause an electrical spark (ignition source). Use proper grounding

procedures.

Store in a cool, dry, well ventilated area away from sources of heat, combustible materials, and incompatible substances. Keep container Storage:

tightly closed when not in use.

Work Practices: To reduce potential for static discharge, bond and ground containers when transferring material.

Special Handling Procedures: Do not reuse containers without proper cleaning or reconditioning.

Wash thoroughly after handling. Avoid contact with eyes and skin. Avoid inhaling vapor or mist. Hygiene Practices:

SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION - EXPOSURE GUIDELINES

Engineering Controls: Use appropriate engineering control such as process enclosures, local

exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Good general ventilation should be sufficient to control airborne levels. Where such systems are not effective wear suitable personal protective equipment, which performs satisfactorily and meets OSHA or other recognized standards. Consult with local procedures for selection, training, inspection and

maintenance of the personal protective equipment.

Eve/Face Protection: Wear appropriate protective glasses or splash goggles as described by 29 CFR 1910.133, OSHA eye and face protection regulation, or the

European standard EN 166.

Chemical-resistant gloves and chemical goggles, face-shield and Skin Protection Description:

synthetic apron or coveralls should be used to prevent contact with eyes, skin or clothing.

Respiratory Protection: A NIOSH approved air-purifying respirator with an organic vapor

cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air purifying respirators may not provide adequate

protection.

Other Protective: Facilities storing or utilizing this material should be equipped with an

eyewash facility and a safety shower.

Titanium dioxide:

Guideline ACGIH: TLV-TWA: 10 ma/m3 Guideline OSHA: OSHA-TWA: 15 mg/m3

Talc, Magnesium silicate hydrate:

SECTION 9 - PHYSICAL and CHEMICAL PROPERTIES

Physical State Appearance: Liquid. Boiling Point: No Data Melting Point: No Data

Density: 10 - 12 Lbs./gal.

Vapor Density: Greater than 1 (Air = 1).

pH: No Data Molecular Formula: Mixture Molecular Weight: Mixture

Flash Point: -156°F (-104°C)

SECTION 10 - STABILITY and REACTIVITY

Chemical Stability: Stable under normal temperatures and pressures.

Hazardous Polymerization:

Conditions to Avoid: Heat, flames, ignition sources, and sparks. Incompatible materials. Freezing or temperatures below 32 \deg . F.

Incompatible Materials: Oxidizing agents. Strong acids and alkalis.

SECTION 11 - TOXICOLOGICAL INFORMATION

<u>Titanium dioxide</u>:

RTECS Number: XR2275000

Skin: Skin - Rabbit; Standard Draize test. : 300 ug/3D; (Intermittent) mild.

(RTECS)

 $Ingestion - Rat\ TDLo:\ 60\ gm/kg;\ Gastrointestinal\ -\ Hypermotility, diarrhea\ Gastrointestinal\ -\ Other\ changes.\ (RTECS)$ Ingestion:

Carcinogenicity: IARC: Group 2B: Possibly carcinogenic to humans.

Talc, Magnesium silicate hydrate:

RTECS Number: WW2710000

Carcinogenicity: IARC: Group 3: Unclassifiable as to carcinogenicity to humans.

Rutile:

RTECS Number: VM2940000

Silicate, mica:

RTECS Number: VV8760000

Undisclosed/Proprietary:

RTECS Number: 016180000

Eye's - Human: 880 ppm/15M; No effects reported. (RTECS) Eve:

Acetone:

Eve: Eve - Rabbit: Standard Draize test.: 10 uL - mild (RTECS)

Skin - Guinea pig; LD50: >9400 uL/kg - Details of toxic effects not reported other than lethal dose value. (RTECS) $\,$ Skin:

Inhalation - Rat LC50: 50100 $\,mg/m3/8H$ - [Details of toxic effects not reported other than lethal dose value Inhalation:

Inhalation - Mouse LC50: 44 gm/m3/4H - Details of toxic effects not reported other than lethal dose value. (RTECS)

Ingestion:

Ingestion - Rat LD50: 5800 mg/kg - Behavioral - Altered sleep time (including change in righting reflex) Behavioral - Tremor Ingestion - Mouse LD50: 3 gm/kg - [Details of toxic effects not reported other than lethal dose value. (RTECS)

n-butane:

RTECS Number: EJ4200000

Inhalation: Ingestion - Rat LC50: 658000 mg/m3/4H - [Details of toxic effects not

reported other than lethal dose value] (RTECS)

Isobutane:

Inhalation - Rat LC50: 570,000 ppm/15M - [Behavioral - Tremor Inhalation:

Behavioral - Convulsions or effect on seizure threshold Lungs, Thorax, or Respiration - Respiratory depression] (RTECS)

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity: No ecotoxicity data was found for the product.

Environmental Fate: No environmental information found for this product.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste Disposal: Consult with the US EPA Guidelines listed in 40 CFR Part 261.3 for the

classifications of hazardous waste prior to disposal. Furthermore, consult with your state and local waste requirements or guidelines, if applicable, to ensure compliance. Arrange disposal in accordance to the

EPA and/or state and local guidelines.

Important Disposal

DANGER! Rags, steel wool and waste soaked with this product may Information:

spontaneously catch fire if improperly discarded or stored. To avoid a spontaneous combustion fire, immediately after use, place rags, steel wool or waste in a sealed, water-filled, metal container. Do not store unused product inside the home. For disposal guidance, contact your household refuse collection service, fire department, county or state

government environmental control agency.

SECTION 14 - TRANSPORT INFORMATION

DOT Shipping Name: Aerosol flammable

DOT UN Number: UN1950 DOT Hazard Class: III DOT Packing Group:

SECTION 15 - REGULATORY INFORMATION

California PROP 65: WARNING: This product contains a chemical known to the state of

California to cause cancer and birth defects or other reproductive harm.
